**Publication of the Pomeroy-Ferras Report**

ICHEIC is pleased to announce the publication of "The ICHEIC Task Force Report on the Estimation of Unpaid Holocaust Era Insurance Claims in Germany, Western and Eastern Europe", authored by Task Force Co-Chairs Glenn Pomeroy and Philippe Ferras. The original report was delivered to ICHEIC Chairman Lawrence Eagleburger in December 1999, and used as background preparation for discussions among ICHEIC stakeholders in various aspects of structuring the work of the Commission, and in working toward agreements with each of the ICHEIC companies.

ICHEIC is publishing the report, accompanied by an introductory summary document authored by Dr. Helen Junz, for informational and educational purposes. Dr. Junz is an economist who, as a member of the Task Force, participated in gathering much of the information conveyed in the Report. As Dr. Junz has stated, ICHEIC hopes that both the report and covering document will prove of "general interest and useful to students of the subject matter."
